Office Action Summary	Application No. 10/723,400	Applicant(s) FU, YEE-CHUNG	
	Examiner William C. Dowling	Art Unit 2851	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 April 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 20, 23, 25, 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Gold et al.

Gold et al. disclose a projection device comprising:

an illumination system for raster scanning a light beam from a source (13) onto a liquid crystal light valve (11) by using a galvanometer (16).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 10-15, 18-19, 20-21, 22, 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gold et al. in view of Haitz

Gold et al. disclose a projection device comprising:

an illumination system for raster scanning a light beam from a source (13) onto a liquid crystal light valve (11) by using a galvanometer (16). The light valve is semitransparent and can be viewed from either side and projected.

Art Unit: 2851

Gold et al. does not teach the use of laser diode means as the light source.

Haitz teaches the use of laser diode means as a light source for illuminating light valves.

It would have been obvious to one skilled in the art at the time of the invention to modify the device of Gold et al. by the substitution of a laser diode light source for the xenon lamp in order to increase the lumen output of the source and increase brightness of the display.

The use of batteries to power electronics is old and well known as a substitute for electricity. As such it would have been obvious to adapt the claimed system for use with battery power sources.

Allowable Subject Matter

5. Claims 16-17, 24, 28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
